Re: Transportation to and from school

School Bus Service is available to students attending our school. It is a safe and efficient mode of transportation. Buses load and unload in front of the school. Staff members are on duty to direct students into the school in the morning and teachers put their students on the individual buses in the afternoon. Buses generally leave our campus by 2:25PM, delivering your child home quicker than you can wait in the car line to collect your child. I encourage you to use school bus transportation for your child(ren) this school year.
